**Chinese painting** is a relaxing form of painting with a fascinating and ancient history.

During the weekend students will learn the skills of handling the brush to produce free and vibrant strokes. These will be developed into paintings with an autumn theme for September. The course is suitable for beginners or improvers.

**Maggie Cross** learnt the ancient art of Chinese Brush Painting in the Far East where she spent her childhood. As a member of the Chinese Brush Painters' Society and the Society of Floral Painters she regularly exhibits her work and lectures on the subject. She has written two books and produced a video and has been teaching for over 20 years.
